

# PULL TO TUNE. PUSH TO PLAY.

A breakthrough in Onboard Guitar Tuning! Installs in minutes under your volume knob with no permanent guitar modification required!

# ONBOARD TRUE BYPASS CHROMATIC TUNING

The N-Tune Onboard True Bypass Chromatic Tuner is the world's most convenient solution for fast, accurate guitar tuning. Whether you're in the studio or on stage, simply pull your guitar's volume knob and use N-Tune's super-bright display to silently tune up in seconds. Then push it back down to play – with perfect tone, thanks to

N-Tune's true bypass design which removes all tuning circuitry from your guitar's signal path. N-Tune installs easily using standard soldering tools and requires no permanent modification of your guitar. N-Tune: It's professional tuning at your fingertips.

- Fast, accurate tuning built right into your guitar
- Pull volume knob to tune; Push to play
- True bypass design preserves tone
- Easily installs using standard soldering tools
- No permanent modification required
- Works in almost any electric guitar
